

MAINE PEOPLE'S RESOURCE CENTER PUBLIC OPINION SURVEY

November 1-3, 2012 ■ N=905

Methodology

2

- A survey of 905 likely Maine voters was conducted by interactive voice response from November 1st through 3rd, 2012. Calls were made at different times of day to maximize the diversity of possible respondents. Questions were recorded by a female interviewer.
- Survey results were mathematically weighted by gender, age and geographic area to ensure an accurate representation of the population being surveyed. The sample was not weighted by party or ideology.
- The margin of error of this survey is 3.26%, 95 times out of 100. Sub-samples may have a larger margin of error.
- Frequencies and percentages may not always add up to the total number of responses or to 100%, due to weighting and rounding.

MPRC is a non-partisan, non-profit organization dedicated to giving people, especially those groups that are under-represented in civic participation, skills and information to engage in the decision-making processes that affect their lives.
